

## ART & DESIGN AQA

Students taking Art will need to complete two coursework assignments. They will also need to produce a controlled assignment in response to a title set by the Exam Board.

Students will follow a course of study in Fine Art. This includes producing work and ideas in more than one of the following materials: drawing and painting, mixed media, sculpture and ceramics, land art, printmaking, photography and lens based media.

The coursework element is worth 60% of the total mark, whilst the externally set assignment is worth 40%.

The coursework is displayed as either a portfolio or an exhibition of selected work showing two or more projects.
